

3D Letters  
built up illuminated

### architectural lettering

internally illuminated rim & return  
3d lettering available in 76mm & 127mm  
return using energy efficient 12v led  
lighting system.

Mango Portadown

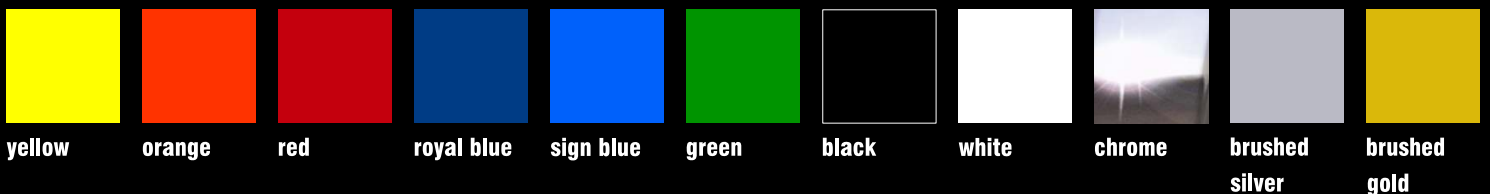

Burger Stop Lurgan

### fabrication

our team of highly skilled letter formers  
ensure precision cutting & fabrication using  
cnc cutting equipment. acrylic letter face,  
allows the letter to illuminate.  
sides of letters formed from anodised  
aluminium for strength & durability.

### use of direct colour combinations between letter face & edge

## high class

☛ these letters create an elegant strong branding that has been previously reserved for large franchises, but are now cost effective for an independent retailer.

Chips Ahoy, Portadown

## how bright?

☛ our LED's are one of the brightest in the industry and require no maintenance. LED's are a replacement for neon, due to their green credentials & 12 volt low running costs. colours available include red, green, blue, yellow, orange and white.

Esprit Clothing, Portadown

## wow factor

☛ express yourself with a strong image. letters can be direct wall mounted or mounted on custom fabricated panel. we are the only manufacturer of these letters in UK & Ireland and a trade service is available.
