

get noticed

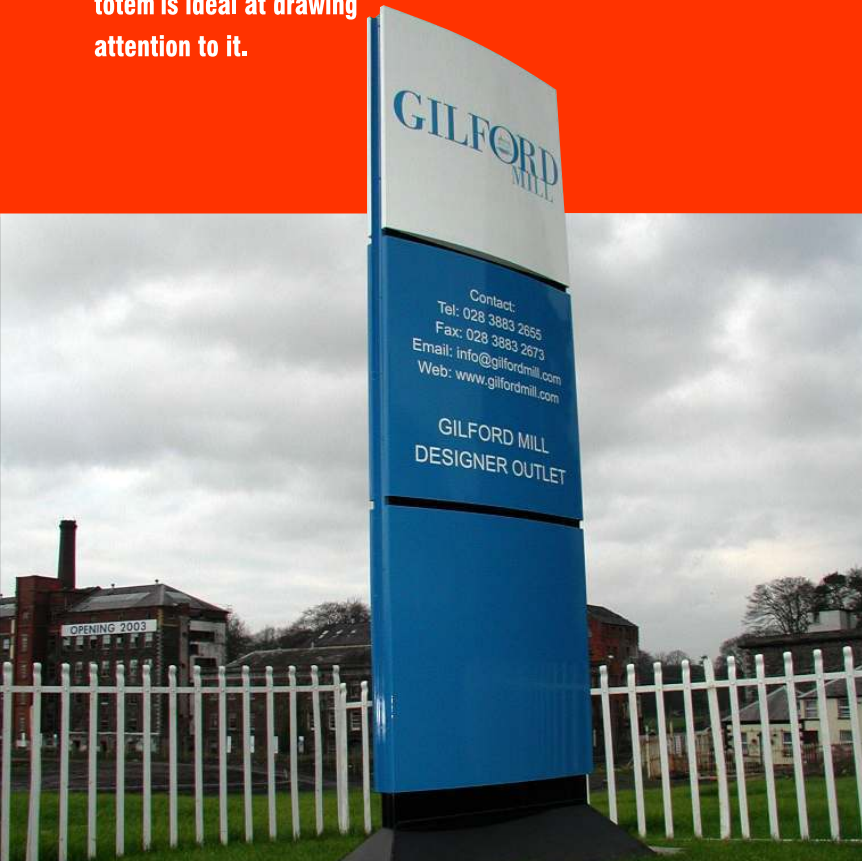

☛ a quality totem design adds that 'high class feel' to any business. totem style signs have become part of the contemporary signage landscape. they can be used in forecourts, shopping centres, hospitals & business parks. if your business is set back from the road then a totem is ideal at drawing attention to it.

Keady Medical Centre - flat panel

distinct

☛ choose from curved, flat or folded faces which can be either illuminated or non-illuminated. our standard curved modular 3 tier totem has a finished height of 4 metres. customised heights are also available.

Gilford Mill - modular

Bawn service station - flat panel

why modular?

☛ any damage to the totem usually means that the whole structure be replaced. however with a modular totem if one of the panels gets damaged only one panel will need replacing.

illuminated

● illuminated totems can attract additional custom during evening and night hours keeping your business name visible 24hrs a day.

manufacture

● manufactured with steel frames, folded trims, aluminium, dibond, perspex or flexi-face sign faces.

Farm Fresh - traditional

Andrews Loynton & McCulla - flat panel

Lunneys electrical - flat panel

Drumnasoo Car Sales - modular

totems flat panel

● available with standard brushed silver, gold or copper finish or professionally spray painted to ral or pantone colour of your choice.

installation

● totems are fitted using steel bolt cages incased in concrete. a versatile sign particularly good at drawing attention to large buildings which are set back from the road.

T H Troughton - modular

Autoselect - flat panel

the finish

● high quality finish in a range of colours including any ral or pantone colour, satin or gloss

Lunneys Electrical - customised flat panel totem
